Cherry Hill Public Schools Release New District App

The Cherry Hill School District's valentine to parents and students this year is a new app. The free app, available February 14, 2014 on app stores for all smart phones, will allow parents and students to get a wealth of district information all in one place.

Instant access is the hallmark of the Cherry Hill Public Schools' ParentLink App. The app is a portal to all school calendars, with regular updates on events, holidays and important dates. The app also offers direct links to the District Twitter and Facebook accounts, with information on school closings and schedule changes, breaking news around the district, and event reminders. Subscribers also may receive emergency notifications directly through the app.

Subscribers will be able to click on to ProgressBook to check grades and assignments, to the Aramark link for the lunch menu and to the MySchoolBucks link for account information. The app also gives subscribers access to Board of Education meeting videos, agendas, minutes and Board member contact information, as well as the Superintendent's Message.

Need contact information or driving directions to a school? The app's School Directory provides the address, phone and fax numbers, website address and principal name for each school, as well as links to maps and driving directions.

Director of Support Operations Don Bart and the District Technology team continue to leverage mobile technologies to encourage communication among the District and community.

"We're proud to introduce our app, which was developed and launched by our technology team," said Bart. "We will continue to add new features to the app, making it a valuable resource for information from and interaction with the District."

(Our App is FREE on the Google Play Store & Apple iTunes App Store)
